Attached is a draft letter transmitting to the HPSCI and SSCI the file categories of the DO that the DCI has designated as exempt from the FOIA. Considering the sensitivity of these file categories, I propose we send one copy of the memo designating DO files to the Chairman of the SSCI and one copy of the same memo to the Chairman of the HPSCI. We will, of course, retain control over the actual listing of DO files. Since I will not be here next week, I would appreciate receiving your comments on this draft letter by this Friday.

DRAFT

The Honorable Dave Durenberger  
Chairman  
Select Committee on Intelligence  
United States Senate  
Washington, D.C. 20510

Dear Mr. Chairman:

I am pleased to inform you that we are now prepared to implement the CIA Information Act with respect to records of the Directorate of Operations (DO). Enclosed is the memorandum by which the Director of Central Intelligence has designated certain DO file categories for exemption from the FOIA requirements of search, review, and publication. The function of these file groupings is to document the conduct of foreign intelligence or counterintelligence operations or intelligence or security liaison arrangements or information exchanges with foreign governments or their intelligence or security services. The main file groupings that have been designated are described in the enclosed memorandum. Also enclosed are certain attachments to this memorandum that set forth the procedures which were used in formulating a list of designated DO operational files and the procedures that will be used to ensure that all non-operational DO files will continue to be searched in response to an FOIA request. A comprehensive listing of all categories and subcategories of DO files that have been designated was also prepared and is attached to this memorandum. This comprehensive listing is especially sensitive because it reveals virtually every operational file category and subcategory within the DO. Because of the sensitive nature of this composite listing, the Director has instructed that physical control over these file listings be maintained by the Agency. Our office will make whatever arrangements that are necessary for members or staff to review these file listings.

As I indicated to you in my letter of 4 January 1985 regarding the Office of Security FOIA designations, the exemption from the FOIA of these designated DO files will only

DOWNGRADE TO UNCLASSIFIED WHEN  
SEPARATED FROM ENCLOSURE

The Honorable Dave Durenberger  
Chairman  
Select Committee on Intelligence  
United States Senate  
Washington, D.C. 20510

Dear Mr. Chairman:

I am pleased to inform you that we are now prepared to implement the CIA Information Act with respect to records of the Directorate for Science and Technology (DS&T). Enclosed is the memorandum by which the Director of Central Intelligence has designated certain DS&T file categories for exemption from the FOIA requirements of search, review, and publication. The function of these file groupings is to document the means by which foreign intelligence or counterintelligence is collected through scientific and technical means. The main file groupings that have been designated are described in the enclosed memorandum. Also enclosed are attachments to this memorandum that set forth the procedures that were used for formulating a list of designated DS&T operational files and a list of the subcategories of files contained by each office within the DS&T that fit within one or more of the major categories of DS&T operational files.

As we have previously indicated to you, the exemption from the FOIA of these designated DS&T files will only become effective after review by your Committee and the House Permanent Select Committee on Intelligence (HPSCI). This letter is also being provided to the Chairman of the HPSCI.

Sincerely,

Charles A. Briggs  
Director, Office of Legislative Liaison
